Rafael:

I talked with Jonathan Carroll and told him that he needed to talk with you guys about the RI/FS. I told him that it may already be too late but that he should talk with you. He indicated that they would move this portion of the project to the company listed below if they were allowed to do the work. I am not sure where you guys are at at this time but here you go. You will probably be getting a call from him.

Thanks

Gary Moore

---

Gary:

Thanks for taking the time to discuss. The firm that we would like to use for the completion of the RI/FS is SEMS, Inc. (<http://semsinc.net/>) of Baton Rouge, Louisiana. I have spoken to them about this project, and they have conferred with TRC about some of the work being conducted on the site before we acquired it from NORCO.

SEMS has experience working on numerous Super Fund sites and has worked with the (EPA- Region 6) Office before. Please review their web site and the attached Statement of Qualifications and pass it on as you see appropriate.

Regards,

Jonathan
